

Feathers flying

[Verse 1]

Walking down the street
Head down, watching your feet
Moving on your way very fast
As if trying to escape the past

[Verse 2]

Stop your run and lift your view
Just stand there and see the inner you
Close your eyes so you can feel
The light inside rising to be real

[Chorus]

No need to run, No need to hide
No fear, just life
Aware of the light
Shining inside you
Feathers flying
To guide you through

[Verse 3]

Did you unlearn to simply feel
There are angels around helping you heal
Focus your core and look around
Guardian signs can always be found

[Verse 4]

Coincidences trying so hard
To show the way to a brandnew restart
Open your heart and let your spirit rise
To finally see with all of your eyes

[Chorus]

No need to run, No need to hide
No fear, just life
Aware of the light
Shining inside you
Feathers flying
To guide you through

[Bridge]

Where to begin
From where you have been
Just take a breath
And take your first step
It is never too late
Discovering your own fate

[Chorus]

Aware of the light
Shining inside you
Feathers flying
To guide you through

[Outro]

No fear and no crying
There are angels allying
If you see feathers flying

(Feathers flying)
